## Did You Know?

That in preparation for their job, all of our Direct Support Professionals go through a rigorous in-person orientation facilitated by our very own subject matter experts. This is followed by 58 on-line courses from the College of Direct Support along with Meal Time Management, Lifting, Behavioral Supports and CPR/First Aid/Epi Pen training every two years. Every year we are also required to take 12 hours of additional training in order to remain on the team. A big shout out to our amazingly dedicated, hard working staff.
